ROBERT H. SMITH,

The old Bachelor's Lament.

I had a merry life ; But what to me is mirth and glee, Without a loring wife ?

My house is fine, I're friends to dine, With fan and frolic rife ; We care resign and quaff our wind, But oh ! I want a wife !

Blue devils drive me mad : Tis then (I own) I sadly mosn, And wish a wife I had.

No Wife to rout, and stir about, And see they don't deceive. No gentle hand, to smooth the band

My legs wrapt round about ;

Alone I stand, in this free land, No one to care about ! Let parsons preach, and wise ones teach

For what is there on earth so dear ? Or what so hallows home? As a Wife who'll share our er'ry care,

Bachelors young attend to my song, Just mark my lonely life: Don't tarry long, I'm sure 'tis wrong,

And perer from us roam ?

The North York Branch Agricultural Society will hold their Spring Show and Ploughing Match on Monday, the 28th April, on Mr. George Davis's Farm, Lot No 82, in the first Con. of Whiteliurch-near Aurora, when the Society will award premiums to the best Ploughmen. For particulars, see Bills.

We perceive by the " Votes and Proceedings," that Mr. Wilson, M. P. P. London, has obtained the permission of the House of Assembly to introduce a Bill for the construction of a railway from London to St. Marg's, or some other point north of London. This looks as if the proposal to continue the road to Sarnia was given up.

In submitting to Parliament his annual finaneial statement, on Friday last, Mr. Inspector General Cayley, announced his intention to increase the tariff of custom duties on imports, twenty-fire per cent on an average .-The reason given for this is, that extraordimary demands on the credit of the country are being made from quarters, where no such de-

Another half year's interest on the same will fall due in July, and must be provided for by the country. This last exposure of their unfitness for the places they hold must basten their doom .-How their supporters in parliament can longer sustain them, is a mystery we acknowlege ourselves unable to solve. Within the last three weeks our Toronto contemporaries almost daily have furnished evidence of serious differences among Ministers,-and between ministers and their supporters. Brazilian brig-of-war Olinda, while attempting to land 320 negroes which she had brought from the coast of Africa. The Olinde took the schooner into Bolivia, where the commander and crew (all Americans) were ironed and locked up in the jail. When the schooner left the coast of Africa she had on board 500 blacks, but they were so closely packed on board, totally maked, and so badly fed during the voyage, that 180 died and were thrown overboard, and of those landed at B livia 64 died a low hours afterwards The survivors were immediately led and clothed, and will be taken care of until their ultimate destination is resolved upon. erly a nacket running between Boston and I shall furnish you with a faithful report of Helifax. ELECTIVE LEGISLATIVE COUNCIL .- The jumble of absurdities to render these costly people elective, is to go the rounds again this session-just as it passed before-not a bit of nonvense left out-the assembly to pass the council to rote-the governor to take no means to secure a compliance with public sentiment. Every thing rotten as punk, and a steam Frigates Tuntarus and Desparate in that is placing Canada in a far more dangerous position than she was in 1837. Bones, Cameron, and W. It was, accordingly at the second meeting of the conference, subinitied for the consideration of the plenipotentiaries. No sooner bad it been formally laid Brunow took objections to its being taken into consideration with a view to its being decided by the Conference. They proposed that it should be referred to a congress of the representatives of all the crowded heads in Europe. If so referred, they pledged themselves, in the name of the Czar, to abide by whatever denew and unexpected phase in the Eastern question has produced great consternation in l'aris; and caused a further fall in the French funds. It has also no less surprised and alarm.

A Boston paper having expressed the opinion that a war with England would lead to the conquest of Canada by the United States, the Albany Kni kerbocker replies : "Nonsense! It might lead to its annexation but not its conques!. Canada has three million inhabitants, the whole of whom are as well acquainted with the rifle as we are. Canada cannot be conquered, and we rejoice that such is the fact. We want no "tchipped communities" to come into the confederacy, and Canada is sure to do so inside of twenty years." No RESIGNATION YET .- Sir Allan is like the Old Guard at Waterloo; he may die but he never will surrender. We are glad to hear that he is better in health, and that HE WON'T RESIGN. His amiable colleagues are at their wits end to discover some method of removat lower rates, but inferior kinds suffered a re- ing him. The contest is growing intensely interesting.
